VIKING CYCLES

First established in Wolverhampton in 1908 the Viking brand has a history rich in tradition of top quality road bikes throughout the century. Quality, style and durability have always been the hallmarks of Viking Cycles.

Today's Vikings embody those core qualities and look to widen the range to suit the ever increasing demands of changing lifestyles.

Each model now utilizes the technical developments of today's manufacturing processes and lightweight tubing.

Viking staff have some combined cycling knowledge of over 300 years.

We live and breathe cycle design, manufacture and service; our heritage is with the independent cycle trade, where we are trusted and can be relied on.

URBAN 03

HERITAGE 11

FOLDING 29

Blending the speed and agility of a road racing bike with the comfort of a trekking bike, gives you the unique combination of Urban Sport.

This is a bike that will make the commute to work or the trip into town for shopping seem more of an adventure.

Viking Urban bikes offer comfort and speed along with the components, style and build quality you can expect from a brand with such great history.

FOLDING

Viking folding bikes offer the perfect travelling companion. Fold when you need to use other forms of travel, for example a car boot or a train compartment. But also fold when you need to store beneath the stairs or under your desk at work. Fold and go! That's the message Viking want you to think. Never be restricted to just one form of transport, combine everything and don't miss out on the cycling.
